Mr. Chris Daly
Manager, Environmental Review
Environmental Assessment Branch
NS Department of Environment and Labour
PO Box 2107
Halifax, NS B3J 3B8

Dear Mr. Daly:

**RE: Highway 113 - Addendum #3
Change in Scope**

The Department of Transportation and Public Works would like to re-register Highway 113 as a Class 1 Undertaking under the *Environmental Assessment Act*.

This project is generally the same as the Undertaking previously registered in September 2004, and the same Environmental Assessment Report, Addendum #1 and Addendum #2, still apply. The definition of the scope of the project has, however, been changed. The "collector" road shown on the plans, going from Trunk 3 to the proposed highway is **no longer** part of the project.

This road is necessary for continuation of the twinning of Highway 103, which is currently under construction, and will function as a local road to serve a previously planned residential development. This road is not integral to the proposed Highway 113.

A revised plan, showing the project as it is now defined, is attached.

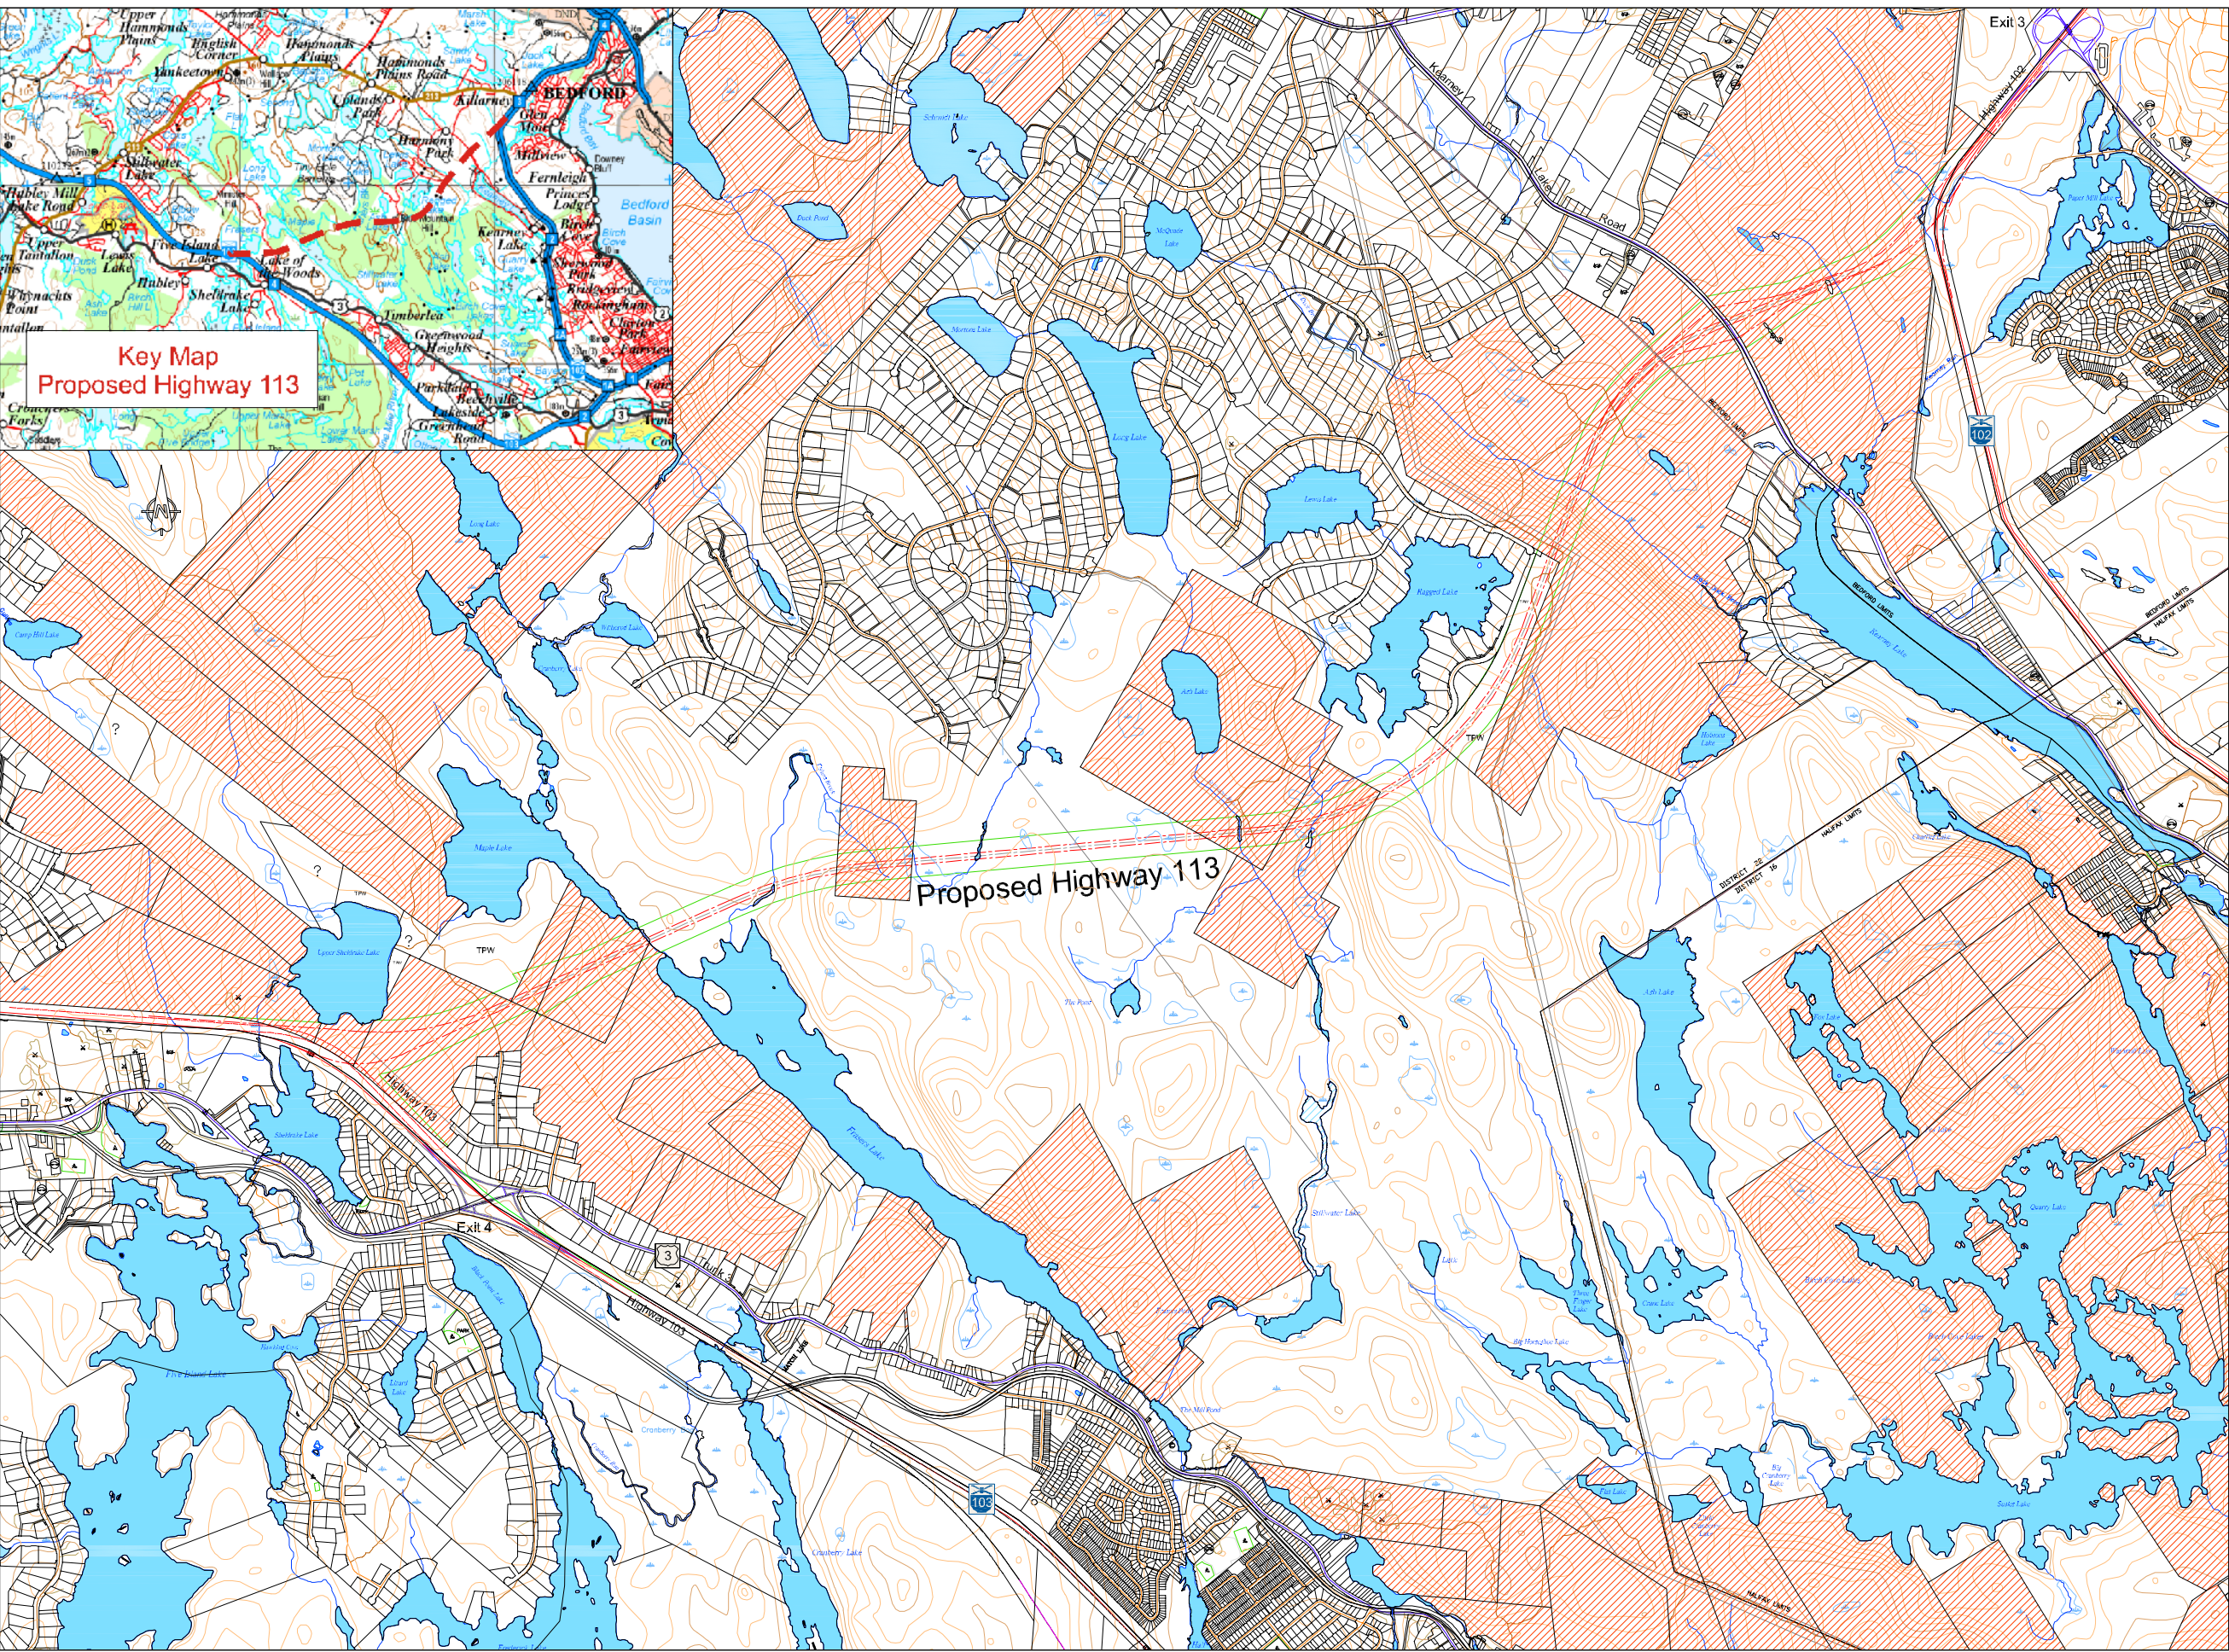

We apologize for any inconvenience this change in scope may cause; however, we hope that re-registering the project in a timely manner will reduce or eliminate any duplication of work by your department and the project's reviewers.

Yours truly,

Alan A. MacRae, P. Eng.
Executive Director
Public Works

/ps
